Built-in Bluetooth and Wi-Fi

## The Myriad Series delivers outstanding performance with enhanced HD audio quality, a modern intuitive user interface, and enhanced telephony features.

It enables users to easily manage their calls, enjoy a smooth user experience and ultimately improve productivity.

## Enhanced HD voice, exceptional 360° audio tuning

**First-class Enhanced HD Voice** HD audio performance with enhanced audio components and sound chamber design. Super wideband in handsfree mode delivers Symphonic HD Voice that takes audio experiences to the next level.

**Exceptional 360° Audio Tuning** around the phone in handsfree mode. Together with super wideband technology and the full-duplex speakerphone, it makes the phone an excellent hands-free conference speaker for 3-4 people.

## Classic elegant design, enhanced user experience

Elegant, sleek industrial design inspired by the Eiffel Tower. The modern, intuitive user interface enables easy call management and quick access to up to 20 lines. It features large hard keys, vivid LED indicators and a 4-way navigator centered with the "OK" key for an enhanced user experience.

## Enterprise-grade functionality, seamless platform integration

offers enterprise-grade telephony features such as 6, 8 or 10-line keys, 4 or 5 programmable soft keys, Gigabit support and 6 or 12-party local conferencing to better facilitate business efficiency and boost teamwork . The standard SIP protocol offers seamless integration with major open SIP servers.
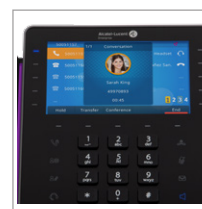

# M8 SIP DeskPhone

## M8 SIP DeskPhone

- 5-inch IPS, 800x480 color display
- 10 programmable line keys with LED, 5 soft keys
- Up to 36 programmable keys
- 20 SIP accounts
- Local 12-party conference
- Standard SIP protocol provides rich telephony features
- Support mainstream open SIP servers in the market
- Support up to 6 EM200 expansion modules
- Secure web base management
- Multi-language support
- IPv4 and IPv6 support
- IP Class: IP52
- Power over Ethernet Class 3

## Stylish and elegant design

- Elegant, stylish format
- 4-way navigation + OK
- RJ9 and USB-A for headset
- Support USB-C power supply
- Built-in dual-band Wi-Fi and Bluetooth 5.2
- Dual Gigabit Ethernet port
- OpenVPN for secure work-from-home
- Adjustable foot stand: 40° and 55°

## 3D Symphonic audio

- 360-degree omnidirectional sound
- Super wideband in handsfree mode
- Wideband HD handset
- Full-duplex speakerphone
- Audio Hub

**Super Wide Band** · **360° AUDIO TUNING** · **AUDIO HUB**

**5.2** Bluetooth

**2.4/5.0 GHz** Wi-Fi
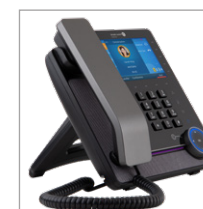

## Accessories

- EM200 color 20 keys expansion module
- Power adaptor 5V/2A DC
- Optional wall mounting kit

# Myriad range accessories

### EM200 expansion module

*The entire company directory is at your fingertips*

EM200 smart expansion module with 20-programmable keys and up to 10 virtual pages, 5-inch color LCD display designed for administration, receptionists and secretaries. The module is connected and powered by the phone's USB-C port. Up to 3 supported on M3s/M5s and up to 6 supported on M7s/M7s pro/M8 with additional power supply.

### USB Wi-Fi Dongle

*For wireless communications anytime*

Communicate from wherever you are: The phone is connected using Wi-fi to your company network, or to your Internet box. Dual-band 2.4/5.0G Wi-Fi USB-A dongle (TL-WN725N and Tenda U9 whitelist).

### Wall mounting kit (M3s/M5s/M7s/M7s Pro/M8)

*Ensuring communications are always within reach*

Easy to reach, for visitors and staff: It can be mounted on a wall. The wall mounting kit is screwed onto the phone. Two screws are provided to ensure the unit is solidly in place even with frequent use.

**Myriad SIP DeskPhones** | Halo SIP DeskPhones | Management | Comparison

# Myriad range accessories

### Power adapters

*External power supply*

Power adapter 5V/2A DC output USB-C to power the SIP Deskphone and 5V/2A DC output USB-C to power the Expansion modules EM200 (US and EU versions).

### Aries wired headsets

*Communicate with total freedom*

From open-plan to call centers the AH21M II and AH22M II models offer a rich communications experience with excellent design, super lightweight and superior comfort available with multiple connection interfaces, jack 3.5mm, USB-A and USB-A to USB-C converter while offering full control box options.

### Aries wireless headsets

*For long wireless communications*

AH80 Bluetooth headset is a high-end headset designed for business professionals to stay focused and productive even in noisy, open office environments. The ergonomic design with soft earpads and a retractable microphone boom makes the headset comfortable to wear all day long.

## The Halo Series is tailored for knowledge workers in mid-range VoIP call, call centers, and public utility applications

The Halo Series is cost-effective and easy to install, offering a wealth of practical telephony features that help enhance business communication efficiency.

## Wideband HD Audio

The Halo Series is equipped with ALE's sophisticated Wideband HD Audio with noise cancellation technology for clear and crisp conversations. The handset is fine-tuned for full-duplex performance in hands-free mode. The Halo Series ensures the users' voice is heard clearly.

## Optimized power design can reach PoE class 1 (H2P/H3G), eco-friendly with lower power consumption and operation cost.

## Extensive compatibility, easy management

Halo IP phones are built on the standard open-source SIP protocol, ensuring easy and seamless integration with most IP PBX platforms. ALE device tools, Easy Device Management (EDM) and Easy Deployment Server (EDS), help ALE partners and customers easily manage the devices, avoid complex manual operations, reduce error rates, and improve time efficiency.
