

Imagine Soft

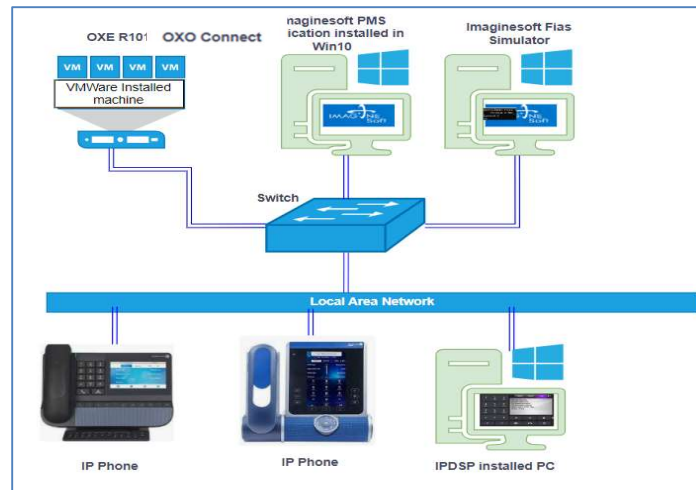

Meteor certified with OmniPCX Enterprise™ and OXO Connect™

Meteor is a product, developed which integrates well into the PBX and Property Management System (PMS) of the hotel. It uses information and features of the PBX and facilitates the interconnection of the PBX and the PMS. Although sometimes dismissed as low priority the call logging systems is an essential in any hotel and face very different demands in the hospitality sector including the need to operate seamlessly with the hotel's PMS Imagine Soft is proud to promote Meteor, a combined call management system designed exclusively for the hospitality industry and installed in many sites throughout the world.

Integration Overview:

Imagine Soft Meteor is designed to enhance Alcatel OmniPCX Enterprise features. It integrates fully with Alcatel OmniPCX Enterprise, OXO Connect through compliant interfaces. It enables guest oriented triple play features (TV, phone, GIA, etc.).

Integration Details:

Meteor is the latest hospitality combined call logging and voicemail solution from Imagine Soft and builds on the previous success of Imagine Soft in the world. Designed specifically for the hospitality environment. The hotel staff can therefore access Meteor via a web browser on their desktop making the system accessible from anywhere on the corporate Lan/Wan infrastructure.

Suited: solution is totally suited to hospitality specifics. It can work in « PMS mirroring » or stand-alone mode for triple-play service enabling & billing with the real payoff of centralized automated guest management.
